Joe,

That sounds reasonable. I am in the process of getting that worked out and I'll have that issued soon. I'll be in touch.....

Thank you,

Jonathan Pettit

Afternoon,

I just checked with the RIC here and it sounds like they would like to see the narrative language you all referenced yesterday and make sure there is concurrence before we start opening up the raw data feeds. Is there an ETA on your finalization of that?

Subject: Hurricane Harvey SCRIBE Subscription

Hello,

I would like to request a subscription for myself and Jonathan (cc'd) for the composite Hurricane Harvey Scribe project. In the SSDMP there are 2 combo scribe projects, and I'm not sure which one we will need. One is R06 Make Harvey All Combo (project # 3342), and the other is R6 Hurricane Harvey ALL (3344). We are interested in reviewing the database to have a better understanding of what kinds of data are being collected to more concisely and accurately formulate questions and requests we are receiving at HQ concerning data. This will benefit region 6 as there will be less discussion required to get the information we need since we will know what information is available.
